

Brigade[®]

STRESS FIGHTING Formula

#2961, #2012, #723R, #724R

PROFILE

CRYSTALYX[®] BRIGADE[®] Stress Fighting Formula is a high energy, free-choice supplement fortified with electrolytes and high levels of vitamins and minerals. This helps overcome nutritional stress associated with weaning, shipping, grouping and the breeding period.

FEEDING APPLICATIONS:

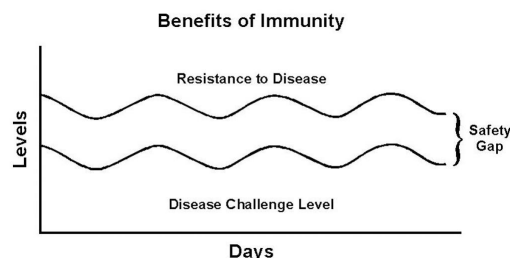

Dairy

- Baby calves
- Weaned calves
- Replacement heifers (45 days prior to breeding)

Beef

- Calves
- Show calves
- Stressed calves
- Replacement heifers (45 days prior to breeding)
- Cows (45 days prior to breeding)

RESULTS BY THE BARREL[™]

ABOUT THE PRODUCT:

Improves Breeding Conditions

- Expression of heat, standing estrus
- Fertility
- Conception rates
- Contains Zinpro's[®] chelated/organic copper, zinc and manganese to improve trace mineral availability and utilization
- Stimulates dry matter intake leading to better condition at breeding time

Reduces Stress

CRYSTALYX[®] BRIGADE[®] Stress Fighting Formula can reduce stress caused by:

- Weaning
- Environment
- Grouping
- Shipping

Product Numbers

- #2961 – BRIGADE[®], 250 lb
- #2012 – BRIGADE[®], 125 lb
- #723R – BRIGADE[®], 60 lb (w/out lid)
- #724R – BRIGADE[®], 60 lb (w/lid)

Stimulates Appetite

- B-vitamin complex helps stimulate intake during periods when different stressors challenge intake.
- High vitamin and trace mineral fortification enhances immune response for fighting disease.
- Palatability ensures consumption of critical nutrients.

Consistent, Dependable Manufacturing

The unique manufacturing process of BRIGADE[®] results in a low-moisture product that dissolves slowly when licked. BRIGADE[®] offers high quality nutrition in a labor-saving package.

BRIGADE[®] is manufactured in plants that are ISO 9001 registered to ensure that every container of BRIGADE[®] is the consistent high quality product that you can depend on. Each plant is also FCI certified, which means our facilities do not use, store or handle prohibited animal protein products.

NUTRIENT ANALYSIS:

Crude Protein, min	14.0%
Crude Fat, min	4.0%
Crude Fiber, max.....	2.0%
Calcium (Ca), min	2.0%
Calcium (Ca), max.....	2.5%
Phosphorus (P), min.....	2.0%
Salt (NaCl), min	1.5%
Salt (NaCl), max.....	2.0%
Potassium (K), min	2.5%
Magnesium (Mg), min	0.5%
Cobalt (Co), min.....	5 ppm
Copper (Cu), min	500 ppm
Iodine (I), min	25 ppm
Manganese (Mn), min.....	2,000 ppm
Selenium (Se), min.....	8.8 ppm
Zinc (Zn), min	1,500 ppm
Vitamin A, min.....	80,000 IU/lb
Vitamin D ₃ , min	16,000 IU/lb
Vitamin E, min	800 IU/lb

INGREDIENTS:

Molasses products, monocalcium phosphate, dicalcium phosphate, plant protein products, hydrolyzed vegetable oil, calcium carbonate, salt, magnesium oxide, manganese sulfate, zinc sulfate, manganese amino acid complex, zinc amino acid complex, copper amino acid complex, copper sulfate, copper chloride, cobalt carbonate, cobalt glucoheptonate, ethylenediamine dihydride, calcium iodate, sodium selenite, vitamin A acetate, vitamin D₃ supplement, vitamin E supplement, B₂ supplement, menadione dimethylpyrimidinol bisulfite, niacin, riboflavin, calciumpantothenate, choline chloride.

WARNING: THIS PRODUCT, WHICH CONTAINS ADDED COPPER, SHOULD NOT BE FED TO SHEEP OR OTHER SPECIES THAT HAVE A LOW TOLERANCE TO SUPPLEMENTAL COPPER.

FEEDING DIRECTIONS:

CRYSTALYX® BRIGADE® Stress Fighting Formula is designed for free-choice feeding to calves, growing cattle and mature breeding cattle fed moderate to high protein forages. BRIGADE® Stress Fighting Formula is fortified with electrolytes and high levels of vitamins and trace minerals to help overcome nutritional stress associated with shipping, weaning, rapid growth rates, late gestation and early lactation. Free-choice consumption will depend on the size of the animals fed, as well as, quality, source and availability of other feeds.

Pen-Raised Calves: Place containers near water source or feed bunks, preferably elevated from ground level to minimize contamination with dirt and other foreign materials that may discourage consumption. Use one (1) container per-head for individually-fed calves, and one (1) container for every 3 to 10 head when calves are fed in groups. Calves typically consume between one and four ounces per-head, per-day.

Growing Cattle and Mature Breeding Cattle: Place containers in areas that achieve desired supplement intake. Once acceptable intake levels have been achieved, the containers may be moved to under-utilized pasture areas to improve grazing distribution and forage utilization. Feed at the rate of one (1) container for every 20 to 30 head, with a minimum of two (2) containers in each lot or pasture to ensure proper accessibility. Cattle typically consume between 0.25 and 0.75 pound per-head, per-day.

ALL CONSUMPTION FIGURES STATED HERE ARE APPROXIMATE. PROVIDE FREE ACCESS TO FRESH, CLEAN WATER AT ALL TIMES.

NOTE: CRYSTALYX® Brand Supplements deliver a continuous supply of nutrients and are designed as a supplement to the animal's diet. When quantity or quality of other feedstuffs is limited, supplemental nutrients, in addition to those provided by CRYSTALYX® Brand Supplements, may be required. In situations where additional nutrients are needed, contact your CRYSTALYX® representative for specific recommendations.
