PROFILE

CRYSTALYX® STABLE-LYX® is a unique, palatable, high energy supplement designed for consistent free-choice consumption by all classes of equines. STABLE-LYX® ensures daily intake of trace minerals and vitamins necessary for top performance.

RESULTS BY THE BARREL™

FEEDING APPLICATIONS:

Equines

(Fed with moderate to high quality forages.)

- Foals
- Equines of all ages

Multiple Protein Sources

Selected blends of plant proteins are utilized in STABLE-LYX® to avoid an amino acid imbalance and to optimize protein utilization.

Minerals and Vitamins

Roughages do not always provide the carotene (Vitamin A), phosphorus, or minerals necessary for optimum equine performance.

STABLE-LYX® is now formulated with both organic and inorganic trace minerals and vitamins A, D and E. STABLE-LYX® also contains B Vitamins, most notably biotin, at 10 mg per pound for healthy hoof formation. These trace minerals and vitamins aide in achieving peak:

- Health
- Working Condition
- Performance

Improved Intake Regulation

Field Reports on a new formulation of STABLE-LYX® have resulted in a product that appears to have more predictable and controlled intake by equines. This will be the first CRYSTALYX® product that contains a significant level of salt that has helped keep intake less than three (3) pounds per-head, per-day under conditions where high intakes have been experienced.

ABOUT THE PRODUCT:

Nutrient Dense

- Very low moisture (typically 2% to 5%)
- Concentrated molasses & hydrolyzed vegetable oil
- Chelated/Organic trace minerals
- Contains Biotin

Palatable

High palatability ensures more consistent intake of supplemental nutrients necessary to maintain maximum performance, health and body condition.

Weather-Resistant

STABLE-LYX® will remain intact until consumed by licking. STABLE-LYX® cannot be bitten or chewed.

Since the durable steel barrel is returnable, it is environmentally -friendly. Futhermore, all CRYSTALYX® products are weather-resistant.

NUTRIENT ANALYSIS:

Crude Protein, min	12.0%
Crude Fat, min	5.0%
Crude Fiber, max	2.5%
Calcium (Ca), min	1.0%
Calcium (Ca), max.....	1.5%
Phosphorus (P), min	1.0%
Salt (NaCl) min	12.0%
Salt (NaCl) max.....	14.0%
Potassium (K), min	2.5%
Magnesium (Mg), min	0.8%
Cobalt (Co), min	5 ppm
Copper (Cu), min	250 ppm
Iodine (I), min	6.6 ppm
Manganese (Mn), min	880 ppm
Selenium (Se), min	0.73 ppm
Zinc (Zn), min	880 ppm
Vitamin A, min	30,000 IU/lb
Vitamin D ₃ , min	5,000 IU/lb
Vitamin E, min	250 IU/lb
Biotin, min	10 mg/lb
Thiamin, min	30 mg/lb

INGREDIENTS:

Molasses products, plant protein products, salt, hydrolyzed vegetable oil, process grain by-products, monocalcium phosphate, dicalcium phosphate, calcium carbonate, magnesium oxide, manganese sulfate, zinc sulfate, manganese amino acid complex, zinc amino acid complex, copper amino acid complex, copper sulfate, copper chloride, zinc oxide, manganous oxide, ethylenediamine dihydriodide, calcium iodate, cobalt carbonate, cobalt glucoheptonate, sodium selenite, vitamin A acetate, vitamin D₃ supplement, vitamin E supplement, thiamin mononitrate, menadione dimethylpyrimidinol bisulfite, riboflavin, calcium pantothenate, niacin, vitamin B₁₂ supplement, choline chloride, d-biotin.

FEEDING DIRECTIONS:

CRYSTALYX[®] Brand STABLE-LYX[®] is designed for self-feeding to all classes of equines.

Place STABLE-LYX[®] containers in areas that achieve desired supplement intake. Provide one (1) container for every three to 20 horses. A minimum of two (2) containers in each pen or pasture may be needed to ensure consistent intake and proper accessibility.

Equines will typically consume between 0.25 and 3.0 pounds per-head, per-day. Free-choice consumption will depend on the size and age of the animal, quality, source and availability of forage, size of pasture or confined pen and number of animals per container.

To introduce or encourage intake with naïve animals:

1. Place in areas where animals loaf or congregate.
2. Apply a handful of loose salt, grain, texturized or pelleted feeds to the surface of the block after the cover is removed.
3. Apply a small amount of water to the top of the block after scraping the surface.

PROVIDE FREE ACCESS TO CLEAN, FRESH WATER AT ALL TIMES.

CAUTION: EQUINES MUST BE MANAGED SO THAT CONSUMPTION OF THIS BLOCK DOES NOT EXCEED THREE (3) POUNDS PER-HEAD, PER-DAY.

NOTE: CRYSTALYX[®] Brand Supplements deliver a continuous supply of nutrients and are designed as a supplement to the animal's diet. When quantity or quality of other feedstuffs is limited, supplemental nutrients, in addition to those provided by CRYSTALYX[®] Brand Supplements, may be required. In situations where additional nutrients are needed, contact your CRYSTALYX[®] representative for specific recommendations.

WARNING: THIS PRODUCT, WHICH CONTAINS ADDED COPPER, SHOULD NOT BE FED TO SHEEP OR OTHER SPECIES THAT HAVE A LOW TOLERANCE TO SUPPLEMENTAL COPPER.
